

## BORGHI of ITALY – #NO(F)EARTHQUAKE

Collateral Event of  
16th International Architecture Exhibition – La Biennale di Venezia

**MAY 26th – NOVEMBER 25th 2018**

**InParadiso Art Gallery** | Giardini della Biennale

**Inauguration on Friday, May 25th | h 5.00 p.m.**

The CEA – Concilio Europeo dell'Arte presents the project **BORGHI of ITALY – #NO(F)EARTHQUAKE**, in conjunction with the „Freespace“ manifesto of the curators of the Biennale Architettura 2018, in the exclusive seat **InParadiso Art Gallery** at the entrance of **Giardini della Biennale** in **Venice**.

The driving force of the exhibition is the theme of **management of seismic risk** and the one of prevention and security of the Italian architecture and monumental patrimony presenting the case of **5 Italian Borghi**. The main objective is to raise **public awareness** about the theme of keeping safe the villages in Italy and the theme of **resilience** as reconstruction and relaunch of the whole territory.

The project is completed by a site-specific artwork by **Marco Guglielmi** in the interior exhibition space and, during the autumnal months, by symposia and **conferences**.

At the conclusion of the exhibition is the original project „**BorgoAlive!**“ by CEA – Concilio Europeo dell'Arte, who takes an active role in Italy. The project shows the public the **Best Practices** for the re-vitalization and re-activation of the Italian Borghi in collaboration with the local communities and the institutions.

The exhibition will be inaugurated at the **InParadiso Art Gallery** on **Friday, May 25, at 5.00 pm** and it will remain open to the public until **Sunday, November 25, 2018**.
